

Quotation Policy

A.C.T Lighting will provide quotations upon request per a Bill of Materials only and will not be able to provide quotations “per specification” or “per drawing”. A.C.T will always work enthusiastically with designers, dealers, specifiers and integrators to generate a Bill of Materials comprised of supported products. Once that has been created we can issue a quote accordingly. All quotes are valid for 30 days unless otherwise specified and any changes to the specified project may require review and requote as necessary.
